

# Project360<sup>®</sup>

PROJECT, PERFORMANCE AND ACCOUNTABILITY SOFTWARE FOR 360° VISIBILITY

Project360° has the power to transform business. It's a strategic workforce management tool that facilitates incentive-based management, adds value for clients, and improves the bottom line. In every kind of business, Project360° fulfills the need for leaders who seek more accountability from their workforce with more dynamic and elegant ways to manage the world of high tech workers.

## Measurably Improving Productivity

"Our customer satisfaction has absolutely gone up. We have clients all over the country who are fascinated by the fact that you can see everything. It helps us in our business reviews to really tell a good story...backed up with data, not assumptions...from which we are able to clearly illustrate improvements."  
*Jeremy Nunn, Client Delivery Director, Spherion Corporation*

## Project360<sup>o</sup> Productivity Summary

Wednesday, September 10, 2008 9:16:16 AM  
Report Generated by: amanda.hammond

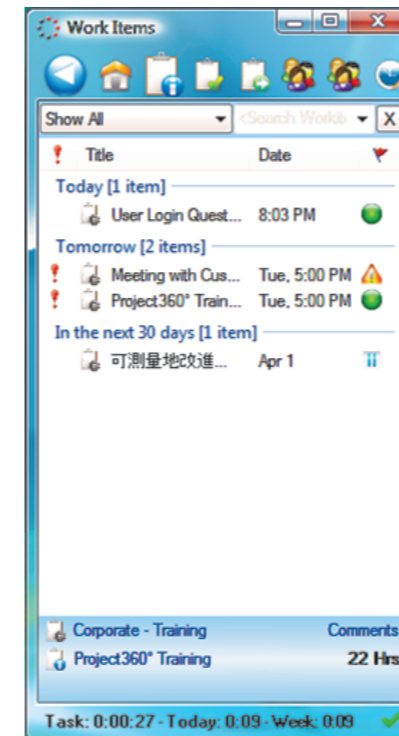

\* This report will not include the current dates data. Productivity is only calculated for completed days.

Productivity		2008						Yellow Marker: Productivity Trend		
Geo	Resource	Jan	Feb	Mar	Apr	May	Jun	Black Marker : Avg Productivity		
Northwest	Holli	114%	120%	115%	118%	97%	109%	0%	100%	200%
	Kimberly	102%	116%	90%	99%	90%		0%	100%	200%
	Katherine	98%	99%	109%	80%	85%	96%	0%	100%	200%
	Sean	102%	105%	60%	97%	88%	100%	0%	100%	200%
	Jennifer	110%	128%	85%	75%	78%	71%	0%	100%	200%
	Megan	92%	96%	94%	84%	77%	84%	0%	100%	200%
	Sumer	93%	94%	94%	83%	72%	78%	0%	100%	200%
	Briahna	78%	97%	85%	88%	73%	92%	0%	100%	200%
	Lyndie	86%	96%	107%	88%	84%	37%	0%	100%	200%
	Nicholas	78%	74%	77%	73%	59%	27%	0%	100%	200%

Easily view historical analytics and use it to predict future performance. Lyndie's manager spotted her decreased productivity and proactively intervened.

### PROJECT360<sup>o</sup> BENEFITS:

- Real-time visibility into how well workers are meeting their performance goals, productivity benchmarks, or service level objectives. Managers learn about, and address issues before they become a problem.
- Keeps workers aware of their responsibilities, focused and on task.
- You control the integration, level of usage, complexity and penetration of the application, and evolve as you need/want more information.
- Manage and keep track of remote or offsite workers with complete visibility into their daily activities and tasks.
- Embed notes and comments directly on the task, document or activity to eliminate confusion or misunderstandings.

### PROJECT360<sup>o</sup> AUTOMATICALLY TRACKS:

- USERS
- TIME
- APPLICATIONS USED
- TASKS, STEPS, DELEGATION OF TASKS
- INDIVIDUAL WORK ITEMS
- ALL DATA CHANGES
- COMMENTS
- TASK ALLOCATION, BY USER OR DEPT
- STATUS

# Do More. Spend Less.

### PROJECT360 FEATURES:

- Easily customized to fit your own business language, roles and tasks
- Sets task prioritization on the basis of time, priority or sequence
- Assign tasks singly or to groups; designate managers to a group of tasks
- Includes a sharable "to do" list
- Automatic notifications and/or delegation of tasks to individuals or groups
- Application prompts worker to complete individual work items and captures related activity, including comments
- "How To" instructions can be embedded into tasks or activities
- Comprehensive reporting on all business activity
- SaaS delivery with full offline capability

### CUSTOMIZE

Its easy to change icons, task names, resource assignments, descriptions and more with Project360's DataPlace administrative tool.

### DESKTOP APPLICATION

Project360<sup>o</sup> is installed on individual employee desktops to collect and document the who, what, when, where and how of all your business activities.
